

Industry Spotlight Series

Teachers Guide

Industry Spotlight is a contemporary series of Interactive Careers DVD's and Website. This first edition features careers in the Energy Industry.

The navigation of the DVD is very simple and easy to use.

The first option is a 1min 30 sec intro which gives a brief run down of the industry and also points out the benefits of the Industry Spotlight Series. There are four case studies each lasting 7 minutes. The case studies show candidates who come from various levels of academic achievement to demonstrate the diverse opportunities within the industry.

Case Study 1:

Alex & James at RBG are doing a Year in Industry before going to college and university.

Case Study 2:

Simon works for Acergy; he has done an HND and degree.

Case Study 3:

Lizzie has finished the graduate programme at Shell.

Case Study 4:

Neal has joined Senergy straight from university.

Each case study highlights the opportunities available and the lifestyle afforded to workers in the Energy Industry.

There is also a "Find Out More" section with a lesson plan built around it. The lesson plan can be downloaded from the website (www.industryspotlight.org.uk) by clicking on "Teacher's Notes".

This interactive section includes:

- *Interesting facts & figures about the industry*
- *Animated Career Paths (1 min each)*
- *Apprenticeship, College and University Information*
- *More Company Profiles*

Please also use and/or direct your students to www.industryspotlight.org.uk where the site can be used in a group or individual basis either in class or at home with parents.

Please plan careers periods around the case study footage, interactive information and website.
