

Industry Spotlight Series

Teachers Guide

Industry Spotlight is a contemporary series of Interactive Careers DVD's backed up by an informative website covering a wide range of industries.

The navigation of the DVD is very simple and easy to use.

The first option is an introduction which gives a brief rundown of the industry and also points out the benefits of the Industry Spotlight series. In addition, there are four case studies on each DVD showing candidates from various levels of academic achievement, demonstrating the diverse opportunities within the industry. Each case study highlights the opportunities available and the lifestyle afforded to workers in each of the featured industries.

There is also a "Find out More" section which gives further information about the industry; an animated timeline of possible career paths; links to college and university web sites and profiles of companies involved in the relevant industry.

The web site is located at www.industryspotlight.org.uk and can be used either on a group or individual basis and at home with parents. The teaching support materials are also available to download from this site.

Suggestions for use of DVD

The DVD can be used either as a teaching resource for a whole-class lesson or pupils can be given individual access to work through the exercises on their own. Suggestions for both scenarios are given below:

Whole Class Presentation

- *Teacher selects DVD on a particular industry*
- *Pupils divided into groups to brainstorm what they know about the chosen industry*
- *Play 'Introduction' section of DVD*
- *Whole-class discussion of information presented – has anything new been learned? Have the pupils' views of the industry changed?*
- *Split class into two groups – half fill in grid on company information; other half fill in grid on people featured.*
- *Play first two case studies*
- *Feedback from pupils on what they have learned*
- *Groups swap to fill in different information*
- *Play case studies three and four*
- *General feedback from class*

Industry Spotlight Series

Teachers Guide

Individual / Group Presentation of DVDs

- *Give class list of DVD topics*
- *Divide class into small groups based on interest*
- *Give pupils DVD on chosen topic*
- *Work through worksheet in groups*
- *Whole-class feedback*

Industry Spotlight Series

Teachers Guide

Web Site Lesson

This can be done before using the DVDs as an introduction to the different types of industry covered in the series. Alternatively, it can be done after the pupils have had a chance to watch one of the DVDs to consolidate and expand on what they have learned.

- *Divide class into groups of three or four*
- *Pupils work through worksheet in their groups*

DVD Workshop

Your teacher will show you an Industry Spotlight DVD dealing with a particular area of employment. Before you watch the DVD, make a list of some of the facts you already know about the industry.

--

Now watch the introduction on the DVD and discuss any new information you have learned.

You will now watch the first two case studies giving information about the companies and people working in this industry. Complete the information in the grid – your teacher will tell you if you should be filling in the “Company” or “People” section.

Next, you will watch the last two case studies and you will fill in the details on the other half of the grid.
